Dedication

We dedicate this book to our parents, **Mrs. Surekha Thakkar**, **Mrs. Sudesh Juneja** and **Mr. Rakesh Juneja**. For their blessings and love is the reason why we are able to add value to the world. We are really thankful to them for giving us such an auspicious purpose of helping people which increases choices and enables quality of life.

Preface

Hello Warrior! Welcome to the Career hero. We have designed the book deliberately in the electronic format so that everyone can access it, all over the world. Honestly, the book is not the hero but you are the one! The book aspires to become your map, your partner and your friend to accompany you in your skills journey. This book is like that bag of tools which you will carry together on your 'Skills Journey'. The book aims to instill and imbibe all those skills and powers which you will get if you use it strategically. The book is designed to cover as many careers as possible. The only requirement is you need to have the aspiration to learn the skills relevant in your career and use the required AI tools and job hunt prompts.

For example, if your journey is to be a cybersecurity expert? You can learn the skills from the free courses links from the Cybersecurity section. Once you have the skills and certificates. Lookout for the project links from the Project links chapter in the "Free courses section". Complete the projects and add it to your portfolio free website. Now you need to use the AI Tools to create an effective Resume and apply for jobs using these tools saving tons of your time. You can also use the Job Hunt AI prompts once you are given a shot for an interview and you need to follow up or improve your networking with people. Don't worry just follow the prompts, paste them and the book helps you become an effective communicator as well. This way your rise from

an aspirant to a War-Hero is ensured by this magical book of “Tech Charms”. Use it wisely and fulfill your destiny to become the one you aspire for! We thank you buddy for choosing this book by paying your precious money and time. We also wish you all the best for your career.

1. AI Hacks

These are the Tools which can let you access extreme productivity by delegating your tasks to AI tools.

Literary or Text Based GPT Models

1. **ChatGPT** (https://chat.openai.com) - A powerful language model trained by OpenAI for conversational AI tasks, including question answering, writing assistance, and code generation.

   But the Recent Version of '**GPT-4O**', allows it for not just simple text but also

   - Upload Documents and get them analysed
   - Have Audio-Visual capacity to communicate.

2. **Jasper** (https://www.jasper.ai) - An AI writing assistant that can help with various writing tasks, such as blog posts, emails, and marketing copy.
3. **Writesonic** (https://writesonic.com) - An AI writing tool that can generate content for various purposes, including articles, social media posts, and product descriptions.
4. **Grammarly** (https://www.grammarly.com) - A writing assistant that checks for grammar, spelling, punctuation, and style errors, and provides suggestions for improvement.
5. **Quillbot** (https://quillbot.com) - An AI-powered writing tool that can paraphrase, summarize, and expand text, as well as check for plagiarism.

6. **Rytr** (https://rytr.me) - An AI writing assistant that can generate content for various purposes, including blog posts, emails, and social media updates.
7. **Wordtune** (https://www.wordtune.com) - An AI-powered writing companion that can suggest rephrasing and rewriting options to improve the clarity and style of your writing.
8. **Copy.ai** (https://www.copy.ai) - An AI writing tool that can help with various content creation tasks, such as writing blog posts, product descriptions, and social media captions.
9. **Speechmatic** (https://speechmatic.com) - An AI-powered text-to-speech tool that can convert written content into natural-sounding audio in various languages and voices.
10. **Murf** (https://www.murf.ai) - An AI writing assistant that can help with various writing tasks, including email drafting, blog post creation, and social media content generation.

Image / Video - Media - Based AI Tools

1. **Lumen5** (https://lumen5.com) - An AI-powered video creation platform that can turn blog posts, articles, or scripts into engaging videos with visuals and animations.
2. **Synthesia** (https://www.synthesia.io) - An AI video creation tool that can generate realistic-looking videos with avatars or virtual presenters from text input.

3. **Pictory** (https://pictory.ai) - An AI-powered tool that can generate visuals, illustrations, and diagrams from text descriptions.
4. **Canva** (https://www.canva.com) - A graphic design tool that offers AI-powered features for creating designs, including image generation and text-to-image conversion.
5. **Mid Journey** (https://www.midjourney.com) - An AI-powered image generation tool that can create stunning visuals from text prompts.
6. **Leonardo AI** (https://leonardo.ai/) - A free AI tool for image creation- it gives 150 credits but its features are too good to create amazing graphics. Leonardo AI is a feature-packed generative AI tool for creating AI art.
7. **Playground AI** (https://playground.com/) **:** Another amazing free tool with ample credits to create AI images, but the best part is its ***search tool*** which allows you to search images. Most tools don't have this tool.
8. **Unsynthetic** (https://unsynthetic.com/) - AI video editing and creation platform.

Transcription Based AI tools

1. **DeepL** (https://www.deepl.com) - A neural machine translation service that provides high-quality translations between multiple languages.
2. **Otter.ai** (https://otter.ai) - An AI-powered transcription and note-taking tool that can transcribe audio and video files accurately and in real-time.
